

About Us

Since its inception nearly 20 years ago, the LWC Safety Committee has provided resources and educational opportunities to help residents:

- 1) develop an Emergency Preparedness (EP) Plan for their household
- 2) be self-reliant in an emergency
- 3) be prepared to shelter in place

4) buy a two-way radio, learn to use it, and keep it fully charged so they can receive information via our Community Radio Service

5) stockpile 2-4 weeks of water and non-perishable food, acquire alternative sources of light, heat and sanitation

=====
