

## **Preparing for a Power Outage**

The Safety Committee hosted a workshop December 6 to help residents prepare their household for a power outage. The [information presented](#) is available on our [webpage](#).

Radio team member Michael Tomlinson talked about the importance of owning a two-way radio, learning to use it, and keeping it charged and tuned to Channel 15. Don Foot and Randy Kollars discussed reasons residents might consider buying a portable generator as a power source during an outage. Following the presentations, residents participated in hands-on demonstrations of radios and a portable generator, and looked at emergency items to provide alternative sources of light, warmth and food prep capability.

If you would like to learn more about what you can do to prepare for a power outage, please contact Anne Bradley
