How to Conduct a Rapid Needs Assessment (RNA) & Complete the Form

As part of this training, you each will have:

- **The LWC RNA Form (1 to 2 pages) for <u>your</u> Safety Area pre-printed with addresses**
- **A "phonetic alphabet" card to facilitate radio communications (e.g., E or P vs. Echo or Papa)**
- **A "Training" LWC RNA Form with examples & 5 hypothetical "homes" or "addresses" to be completed during the Field Exercise**
- **A copy of the original Lincoln County RNA Form**

Safety Captains, remember:

- You are **NOT** First Responders
- Your job is to safely report conditions in your Safety Area
- You do not enter homes
- If you identify **CRITICAL** conditions, call **911** (if possible) & always radio Incident Commander (IC)
- Continue RNA & transmit information to LWC Net Control for tallying

What are critical conditions?

- **They are the conditions in RED CAPITAL LETTERS on the RNA Form (see below)**

Rapid Needs Assessment Form	Person Reporting:		Contact #:		Agency:
Date:	Person Receiving:		Contact #:		Page _____ of _____

LWC Safety Area: **12**	(S, L, M)	Fire (X)		Hazards (Off, LEAK, Spill, Wires)				Structure Damage (X)						People (#)					Status (X)			(B, D)	Comments/Special Needs
	Time	If you encounter any conditions that are in RED CAPITAL LETTERS, call 911 & notify the LWC Incident Commander via radio on Ch15 ======> Location/Address	Dwelling Units	BURNING	Out	GAS	Water	Electrical	Chemical	Habitable	Affected	Minor Damage	Major Damage	DESTROYED	INACCESSIBLE	Green	Yellow	Red	Black	TOTAL	Unknown	TRAPPED	Needs Shelter	ROAD ACCESS	Add additional notes such as: - Medical (oxygen, special meds) - Animal concerns (pets, livestock, etc.) - Suspicious behavior (weapons, other) - Description of road blockage/damage

8		1475 SW Tintinnabulary Pl	S																						
9		1479 SW Tintinnabulary Pl	S																						
10		1483 SW Tintinnabulary Pl	S																						
		TOTALS																							You do NOT need to TOTAL (Optional)

Dwelling Units: **S**ingle family, **M**ulti-family, **L**ot; **Fire:** Check (**X**) Burning or Out; **Hazards:** Service **O**ff, **L**eak, **S**pill, **W**ires Down or Damaged;
Structure Damage: Check (**X**) Habitable can include some damage, Affected - contents off the shelves, Minor - <30 days to repair, Major - > 30 days to repair, Destroyed - off foundation, pancaked; **# of People** within CERT Triage Color Categories ----------
Status: Check (**X**) Unknown if you cannot ascertain if dwelling is inhabited, **X** if trapped, or **X** if needs shelter;
Road Access: **B**locked (tree or debris), **D**amaged (washout, landslide, cave-in) - elaborate in comments
Original Lincoln County, Oregon - Emergency Operations Center (Revised by LWC Safety Committee, 03/20/2026)

Black	Expectant	Pain medication only, until death
Red	Immediate	Life-threatening injuries
Yellow	Delayed	Non-life-threatening injuries
Green	Minimal	Minor injuries/Uninjured

CRITICAL CONDITIONS (continued)

- These are conditions that are:
  - Life-threatening
  - Require urgent assistance (e.g., people trapped in their homes)
  - Destroyed or inaccessible homes
  - Events that could affect more than one home (e.g., fire, smell of leaking gas, etc.)
  - Could impede first responders (e.g., blocked roads)
  - It could be something not on the form (e.g., someone with a gun, a wild animal, etc.)

CRITICAL CONDITIONS (continued)

- As a Safety Captain, how should you respond?
  - Call 911, if possible
  - Always, report these events via your radio on Channel 15 saying “I have an emergency transmission”
  - Briefly & slowly transmit your information
- What happens then?
  - Net Control will acknowledge your transmission & repeat to verify the information
  - The information is then passed on to the Incident Commander

Continuing Your RNA

- **After calling in your critical conditions, and only if you feel safe, walk around your neighborhood with your RNA form on your clipboard**
- **BUT, if in your walk-around, you discover any other CRITICAL CONDITIONS, call them in immediately**
- **OK, but what about this "complex" RNA form?**
- **How am I supposed to complete this form?**
- **What do I do once I have completed this form?**

This is a complex form & no doubt, you have seen others

		Totals																				

Dwelling Units: Single family, **M**ultiple Family (# of units), **M**obile Home **Hazards:** Service **O**ff, **L**eak, **S**pill, **W**ires Down
Structure Damage: **Habitable** can include some damage, **Affected** - books off the shelves, **Minor** - <30 days to repair, **Major** - > 30 days to repair, **Destroyed** - off foundation, pancaked
CERT Triage Colors: Yellow, Red, Black
Road Access: Clear, **B**locked (tree or rubble), **D**amaged (washout, landslide, cave-in)

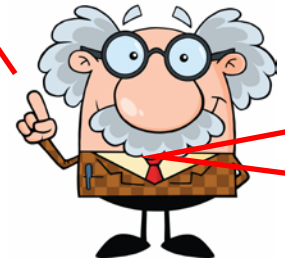

LWC RNA Form (continued)

- **Our form is very similar to the original with a few minor modifications including:**
  - **The LWC form is in color, but can be printed grayscale – that's why CRITICAL CONDITIONS are in all capital letters**
  - **We have "LWC Safety Areas" instead of "Reporting Jurisdiction & Area:"**
  - **In Dwelling Units, we do not have "Mobile Homes, but we have Lots**
  - **We added a legend for the CERT Triage Color Categories**
  - **We added the Green category (Minor Injuries/Uninjured) because even uninjured people may need water or food & they represent our volunteer workforce**
  - **We added a Total Column to the Triage Categories**
  - **Given nearly half of our "residents" are parttime, we added an "Unknown" column under Status**

LWC RNA Form (Top)

- Let's go through the LWC RNA Form starting with the top of the form

Rapid Needs Assessment Form	Person Reporting:	Your Name	Contact #:		Agency:	
Date: Event Date	Person Receiving:	Net Control	Contact #:		Page 1 of n	
LWC Safety Area: 12	(S, L, M)	Fire (X)	Hazards (Off, LEAK, Spill, Wires)	Structure Damage (X)	People (#)	Status (X)	(B, D)	Comments/Special Needs

Make sure you have the correct RNA Form for <u>your</u> Safety Area!

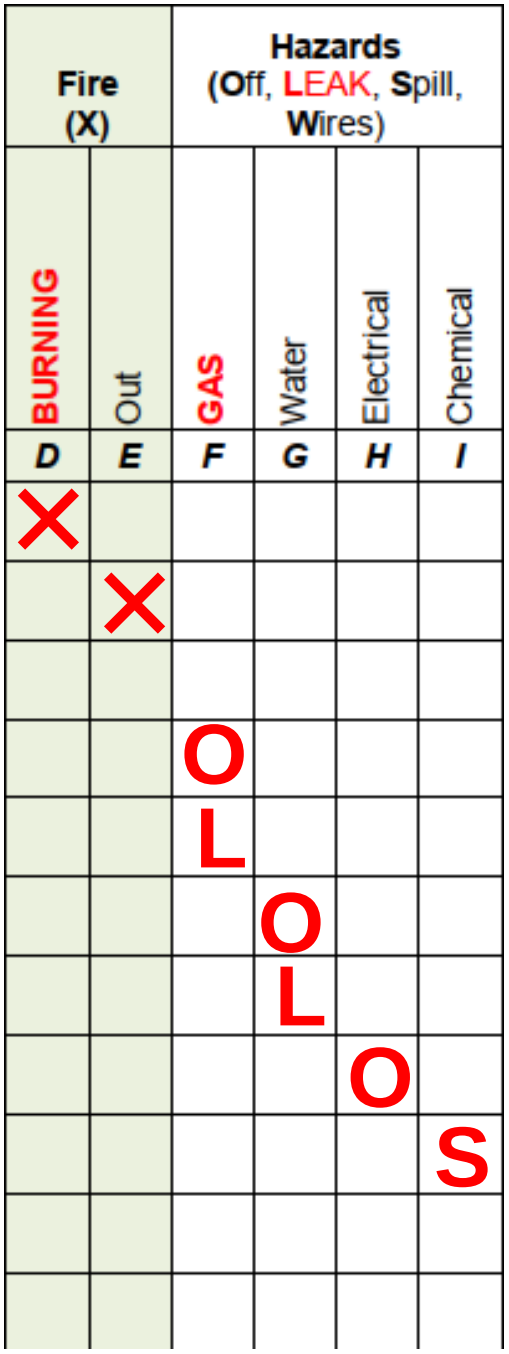

LWC RNA Form (Location & Time)

- Note instructions for CRITICAL CONDITIONS
- "Location/Address" & "Dwelling Units" have already been inserted into the RNA Form for your Safety Area
- You only need to add local time; 24-hour is preferred, but not necessary

	Time	If you encounter any conditions that are in RED CAPITAL LETTERS, call 911 & notify the LWC Incident Commander via radio on Ch15 ======> Location/Address	Dwelling Units
	A	*B*	*C*
1		315 SW Singing Tree	S
2		1435 SW Tintinnabulary Pl	S
3		1445 SW Tintinnabulary Pl	S
4		1455 SW Tintinnabulary Pl.	S
5		1460 SW Tintinnabulary Pl	S
6		1465 SW Tintinnabulary Pl.	S
7		1470 SW Tintinnabulary Pl	S
8		1475 SW Tintinnabulary Pl	S
9		1479 SW Tintinnabulary Pl	S
10		1483 SW Tintinnabulary Pl	S

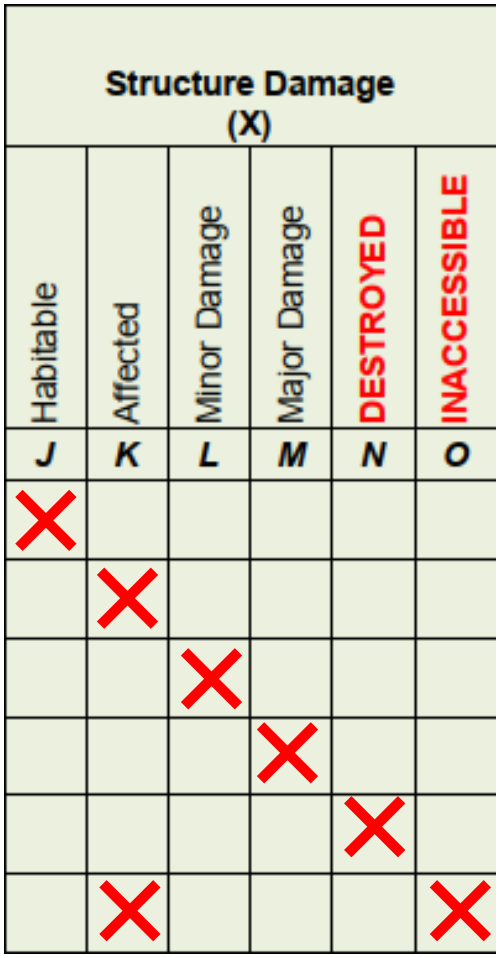

LWC RNA Form (Fire/Hazards)

- Three choices for fire – BURNING, Out, or not burning or burned, so place an X in the appropriate column &, if not burned or burning, leave blank
- For "Hazards", use the codes O, L, or S (we do not have overhead wires in LWC)
- We may want to add an "N" for "No Gas"; this can be important information during an extended power outage in the Winter
- Codes are also explained at the bottom of the form (later)

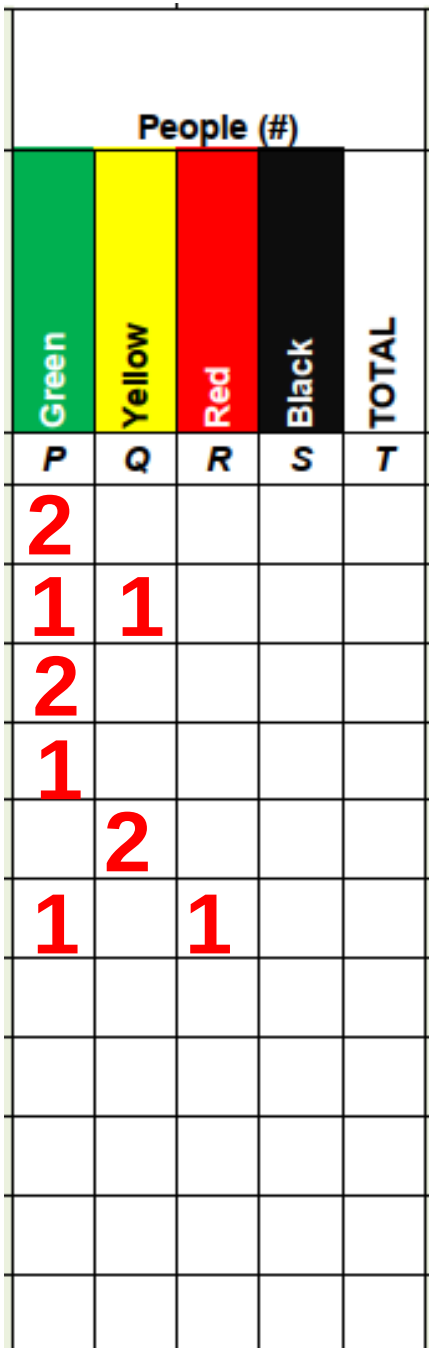

LWC RNA Form (Structure Damage)

- This is probably the most complicated section of the form; however, a detailed explanation can be found at the bottom of the form. The appropriate column is checked with an X & at least one box should be checked for every address
- Note that there could be two Xs if, for example, a house for the most part, is standing but the entrance to the house is blocked
- Even a destroyed house may have portions that are accessible

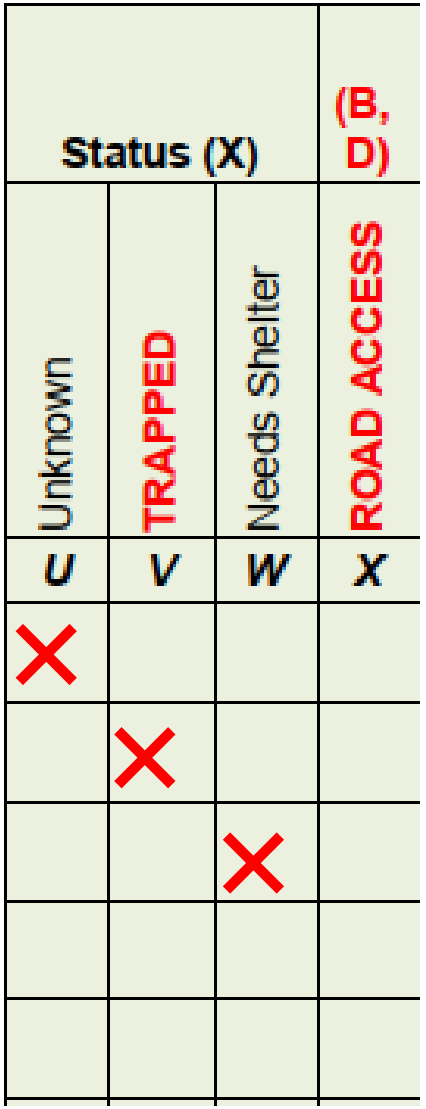

LWC RNA Form (People)

- This is probably the most emotional section of the form, particularly the Black category (refer to notes at bottom of form); leave this to the ICS Medical Leads
- These are not coded as CRITICAL CONDITIONS in the LWC Form; however, if someone is visible (e.g., at door or front yard) or calling for help you should call 911 & radio your assessment of anyone you think is in any category other than Green
- If people are visible, enter a number in each category (totaling is optional)

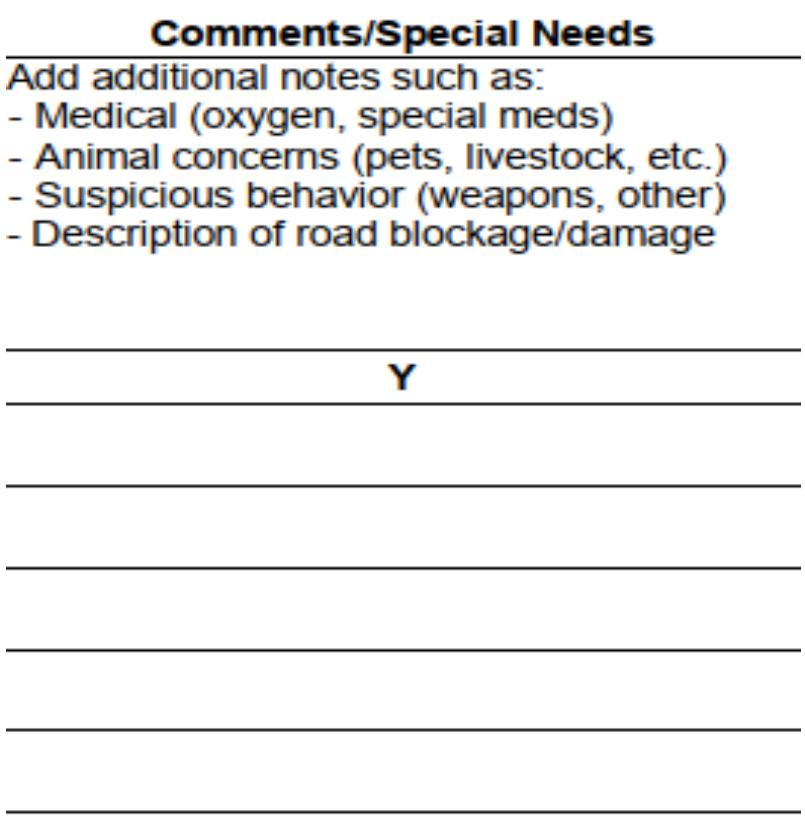

LWC RNA Form (Status & Road Access)

- **Status is important for indicating if you do not know if anyone is home (refer to Comments discussion), if they are trapped (possibly called in earlier), or if they need shelter; remember #s were entered in the People Category**
- **Road access is important to first responders (if they are available) & LWC response teams; the "B" (blocked) & "D" (damaged) codes are explained at the bottom of the RNA Form**

LWC RNA Form (Comments)

- **During our first Field Exercise, Safety Captains found this column, particularly useful, not only for recording information not on the form, but for recording observations such as “no answer at door knock but animal could be heard or seen at window” suggesting someone was away temporarily or chose to or could not answer the door**

LWC RNA Form (Explanatory Notes)

- **More detailed information on specific categories & codes can be found at the bottom of the form**

		TOTALS																						You do NOT need to TOTAL (Optional)

Dwelling Units: **S**ingle family, **M**ulti-family, **L**ot; **Fire:** Check (**X**) Burning or Out; **Hazards:** Service **O**ff, **L**eak, **S**pill, **W**ires Down or Damaged;
Structure Damage: Check (**X**) Habitable can include some damage, Affected - contents off the shelves, Minor - <30 days to repair,
Major - > 30 days to repair, Destroyed - off foundation, pancaked; **# of People** within CERT Triage Color Categories ----------
Status: Check (**X**) Unknown if you cannot ascertain if dwelling is inhabited, **X** if trapped, or **X** if needs shelter;
Road Access: **B**locked (tree or debris), **D**amaged (washout, landslide, cave-in) - elaborate in comments
Original Lincoln County, Oregon - Emergency Operations Center (Revised by LWC Safety Committee, 03/20/2026)

Black	Expectant	Pain medication only, until death
Red	Immediate	Life-threatening injuries
Yellow	Delayed	Non-life-threatening injuries
Green	Minimal	Minor injuries/Uninjured

- **Congratulations! You have now completed the form, but how do you get the information to the ICS Team?**

Transmitting Information

- **Option 1 – Bring your RNA Forms to the ICS Team in the Rec Center, but only if it is safe to do so**
- **Option 2 – Use your radio & call into Net Control on Channel 15, ideally between the broadcast hours (unless it is urgent) & use the following format:**
  - **This is [your name], Safety Area #, I am ready to transmit**
  - **Net Control tells you to proceed**
  - **Row #, Time, indicate any checks, codes, or numbers entered into Column D through X (e.g., Column Hotel – Oscar, i.e., electricity - off); do not transmit empty columns**
  - **Add any important comment**
  - **Net Control will read back to verify they received the information correctly**
  - **Repeat for all rows & announce you are finished & clear**

Transmitting Information - Notes

- **Is the phonetic alphabet necessary? – Yes, Net Control need to distinguish between Columns B, D, E, G, T, & V (for example)**
- **Note – After about 1 minute, say "Pause" & take you finger off the PTT button, wait 5 seconds then resume**
- **Your information will be tallied at the Com Center & relayed to the IC & EOC**

Phonetic Alphabet

Alpha	November
Bravo	Oscar
Charlie	Papa
Delta	Quebec
Echo	Romeo
Foxtrot	Sierra
Golf	Tango
Hotel	Uniform
India	Victor
Juliet	Whiskey
Kilo	X-ray
Lima	Yankee
Mike	Zulu

RNA Field Exercise

- **In an actual event, you would walk or drive (only if safe to do so) with your Safety Area's RNA form on a clipboard**
- **For this training Field Exercise, you can walk or drive around your Safety Area with the *Training RNA Form* (refer to following slide), alternatively, you can sit at home & complete the form with hypothetical conditions**
- **Once the form is completed, you can bring it to the ICS Team at the Rec Center or you can radio in your results to Net Control**
- **This information will be tallied by the ICS Team**
